

Net Content: 2 x 2.5 Gallons (18.9 liters)

Density: 12.59 lbs/US gal (1.51 kg/L) @ 68° F

Net Weight: 62.9 lbs (28.5 kg)

KEEP OUT OF REACH OF CHILDREN

WARNING

Shake well before using. Read entire label before use.

GENERAL INFORMATION: This product is a specialized utility modifier that acts as a water conditioner and water buffer. Conditions that allow for wider use include optimizing the pH of well, river or dug out water; minimizing calcium caking in sprayers and buffering spray water to keep the "herbicide active ingredient intact."

DIRECTIONS FOR USE: For applicators who traditionally use a water conditioner/pH adjuster/buffering agent (water from dugouts/ponds/wells, rivers)

RectipHy use rates are 0.25 to 1 quart per 25 gallons of water. A 2.5 gallon container will treat 100 acres at a 0.1 quart rate (0.5%v/v) in 5 gal/acre of spray solution.

AND OTHER USES: The addition of a water conditioner/pH adjuster can also widen the conditions of use to some pesticides or pesticide tank mix combinations. RectipHy when added to spray water may be applied by Ground, CDA or Aerial spray equipment. For most applications, use enough RectipHy solution to allow for uniform wetting and deposition of the spray onto leaf surfaces without undue runoff.

MIXING: Prior to application, all spray mixing and application equipment must be thoroughly cleaned. Carefully observe all cleaning directions on the pesticide label.

1. Fill spray tank one-half full with clean water and begin agitation.
2. Add water conditioner/pH adjuster RectipHy.
3. Allow time to thoroughly agitate and add the required rate of herbicide.
4. Continue agitation and complete filling of the spray tank.

ENVIRONMENTAL CAUTIONS: Do not contaminate water by cleaning of equipment or disposal of wastes. Use this product only as specified on the label.

HANDLING: Store it in original container only. Keep container tightly closed, do not allow water to be introduced into the contents of this container. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash water or spray waste. Do not store near heat or open flame. Do not store with oxidizing agents. For help in chemical emergencies involving spill, leak, fire or exposure call CHEMTREC: 1-800-424-9300 / +1 703-527-3887.

WARRANTY AND CONDITIONS OF SALE: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. Buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
